EDUCATION

McGill University – Desautels Faculty of Management, Montreal, Canada *2017 – 2021*
Bachelor of Commerce, Major in Finance, Minor in Computer Science.

High School: Lycée Albert 1er, Monaco *2014 – 2017*
French Baccalaureate – Economics and Sociology
Awards: Graduated with Highest Honours with a final grade of 16.97/20

WORK EXPERIENCE

Finterpret.co, London, United-Kingdom *August 2024 - Present*
Founder
- Developed a SaaS platform that analyses your investments using AI and provides insights to improve your portfolio allocation.
- Coded and deployed the entire platform using Next.JS and Vercel. Additional Stack: MongoDB, Mailgun, Stripe.
- Built MVP in 3 months as a part-time project and launched on Product Hunt.

nChain, London, United-Kingdom *June 2023 – Present*
Product Owner
- Product owner for nChain Certify, a web application to issue digital certificates on blockchain. Leading a team of 2 engineers, 1 UX designer and 1 QA. Responsible for all aspects of the product: roadmap, sprint planning and execution, client onboarding, etc.
- Responsible for product communications across departments. Led monthly sessions with Research team (15+ cryptography researchers) to gather internal patent technology, with the objective to implement the latter into our products.
- Blockchain technology consulting: Led 4 engagement proposals for prospective clients in 3 countries.
- Advised 7 startups on product design and implementation in web3 incubator BlockDojo.

Deloitte, Montréal, Canada *September 2021 – February 2023*
Business Analyst - Omnia AI, Intelligent Automation
- Worked on 6 client projects within Deloitte Canada's Artificial Intelligence consulting practice, identifying ROI-positive automation opportunities and ensuring successful development and deployment.
- Supported various project activities, including measuring and prioritising candidate processes, gathering requirements, defining and managing user stories, ensuring thorough QA testing and deploying into production.
- Successfully led a team of 2 developers and 2 QA analysts. Youngest scrum master in the automation program for a top-5 Canadian bank and successfully led the team to ship an end-to-end process automation bot for the Wealth Management division.
- Led our practice's internal resourcing operations, significantly reducing efforts and time spent allocating resources to projects.
- Participated in various business development activities: supported proposal responses and sales process, led campus recruitment operations for the team and took part in building the firm's first Digital Assets & Blockchain offering in Canada.

Bank Julius Baer, Monte-Carlo, Monaco *June 2019 – August 2019*
Front Office Intern, LATAM Desk
- Day-to-day assistance and service to Brazilian clients regarding their banking needs: communication of account statements, collaboration with middle and back-office for financial market transactions and money transfers.

PERSONAL PROJECTS

- **Etudes-Canada.com** – Built a guide for studying in Canada and a web page + payment gateway. Stack: React, Firebase, Stripe.
- **AutoTrader** – Fully automated cryptocurrency trading bot in Python. Analyses market movements for 100+ cryptocurrencies and triggers Buy/Sell orders through Coinbase API.
- **GPT-Powered Twitter Bots** – Automated Twitter accounts powered by Chat-GPT. Daily posts of historic events or workout routines.
- **CourseChecker** – A Python bot (using Selenium) that can monitor a university class waiting list and notify you when a spot opens.
